

Working With Frames

You can also swing from frame to frame (or into frames):

//To focus on Particular frame

```
driver.switchTo().frame("frameName");
```

//To switch to parent frame

```
driver.switchTo().parentframe();
```

//To go back to default page

```
driver.switchTo().defaultcontent();
```

The screenshot shows a web browser window titled 'Untitled Document - Microsoft Internet Explorer'. The address bar shows 'http://localhost:8000/Insurance/mainceo.htm'. The page has a purple header with 'CREATIVE INSURANCE SYSTEM' on the left and 'ADMINISTRATOR' on the right. Below the header is a navigation bar with links: [Branch](#), [Policies](#), [Branch Manager](#), [Reports](#), and [Logout](#). The main content area has a purple background and features a 'Branch Registration' form. On the left side of the form area, there are three links: [Branch Registration](#), [Branch Modification](#), and [Branch Deletion](#). The form itself includes a 'Date' field with the value '2010-12-20'. Below this is a table with four input fields: 'Branch Name' (value: vijaya), 'Location' (value: vijayawada), 'Phone' (value: 6632147), and 'State' (value: AP). At the bottom of the form are two buttons: 'Submit' and 'Reset'. The status bar at the bottom of the browser window shows 'Local intranet'.

Branch Name	<input type="text" value="vijaya"/>	Location	<input type="text" value="vijayawada"/>
Phone	<input type="text" value="6632147"/>	State	<input type="text" value="AP"/>
